Sheldon ISD is committed to providing a safe environment for all students to learn and grow as well as a safe place for our administrators, teachers, and staff to work and ensure the best possible learning environment for the Sheldon community.

Thanks to the supportive Sheldon community for passing a bond in 2016, millions of dollars were dedicated to support enhancing safety and security measures on campuses.

**Arriving to school on time** places an emphasis on safety by adhering to procedure.

**Students** in all grades should wear **ID badges** every day. No hoodies or hats on heads.

**Anonymous Alerts** online reporting system dedicated to monitoring security and encourage community members to partner to report incidents.

**District Employees** are provided with annual training each year.

**Emerging Operations Plan** reviewed by district and updated.

**Volunteers** and staff must pass a **criminal history** check prior to employment or serve in schools.

**All Visitors** are screened against the national sex offender registries prior to gaining access to the building.

**Addition of Nero** to the safety team - a service dog who will make rounds throughout the district.

**Clear or Mesh** backpacks are required at all grades.

**Heightened video security** and front entry cameras for visitors to use at building entrances.

**All Visitors** to the district campuses and high school sporting events are required to proceed through metal detectors, much like you would at any of the sports venues in downtown Houston.

**Increased** number of law enforcement **officers** at campuses. Officers on each campus.
