

Grandparents College 2022 -Descriptions of Majors

Grandparents College offers three “majors” taught by MU faculty and staff from disciplines across campus. You and your grandchild will stay together in the same major for the entire three-day program. An adult must accompany each child at all times during the activities related to the major.

**courses listed are subject to change*

Arts and Culture

Miami excels in the arts! Sample a variety of courses related to the arts and the various cultural opportunities Miami has to offer. Participate in a theatre class, learn how to cook and explore the Miami Art Museum!

Science, Technology, Engineering & Math (STEM)

Miami is a leader in STEM instruction, and we are excited to share some of our best STEM activities and courses with our participants! Crack the codes of mathematics puzzles, spend time in our gaming lab, and be a paper engineer for a day!

The Miami Plan

Do you remember “Common Curriculum” courses or “Liberal Education Requirements” from your Miami days? Today, all Miami students are required to take a variety of liberal arts courses under the university’s “Miami Plan”. Experience our own Grandparents College Miami Plan by taking classes that cross all disciplines. Spend time learning about Geology, fine-tune your dancing skills and learn how to make a Toasted Roll (our favorite Miami tradition!)
