Avon Lake - Announcement Images

The Avon Lake Regenerative Master Plan transforms a decommissioned coal-fired power plant into a vibrant, mixed-use lakefront destination on Lake Erie.

The new mixed-use development will bring a critical mass of activity to the lakefront, featuring 1,500 housing units, 45,000 square feet of office space, and 15,000 square feet of retail space.

The once inaccessible lakefront becomes a public park with native plantings, blending beauty and function while providing vital habitat for the local ecosystem.

The lakefront park spans a 30-foot grade change, providing access to the beach, an amphitheater, and public spaces, with the preserved smokestack and pump station visible in the background.
